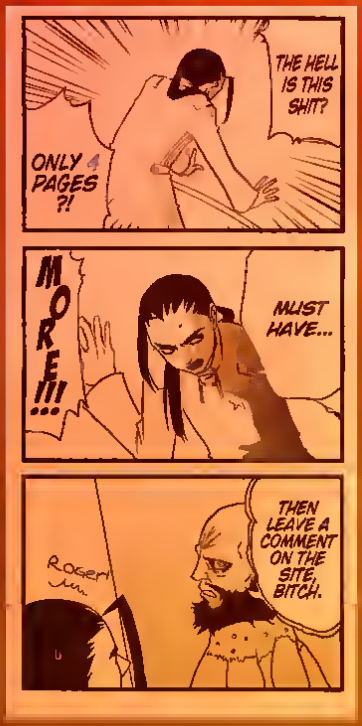
Some rambling from the AnCo² team.

Red ~ Alright well here's the deal. What the hell is this? It's a damn weird GL 4koma :D ..Tho you wont notice it being a 4koma until chapter 3.. Every chapter is made by different mangakas, so it'll be rather different from chapter to chapter. This chapter is made by Sagano Aoi...who mainly does H-Doujins. >_> Here's her site if you wanna check it out. http://a-sagano.ouchi.to/ And well... this is very NSFW lol (Psst, she has done a GL one too, gimme a link if you find it. 3)

Errrn anyways. these are rather short, so we'll be able to flush these out rather quickly, so stay tuned. D



Special thanks to
